

Science Notebook - Our Hypotheses

Hypothesis
I think aquaponics will grow best because there are lots of water with the fish.

hypothesis I think aquaponics will grow best because the fish poop help the plants grow.

hypothesis
I think ~~conventional~~ will grow best because ~~the fish poop~~ will help the plants.

hypothesis
I think conventional will grow best because many peopl have dont that way.
Narissa

hypothesis I think aquaponics best because th fish are in ther.
Levi

hypothesis
I think aquaponics will grow best because go for s. cant get it.

hypothesis
I think aquaponics will grow best because the fish poop.

hypothesis Sylvia
I think conventional will grow best because ~~the~~ the usual thin that they use.

hypothesis
I think aquaponics will grow best because ~~the fish poop~~ help it. Her of water.

hypothesis
I think aquaponics will grow best because the fish poop will help the plants.
Dana

Hypothesis
I think aquaponics will grow best because the fish poop will help it.
Amaya Hall

I think conventional soil will grow best because people dont of lots.

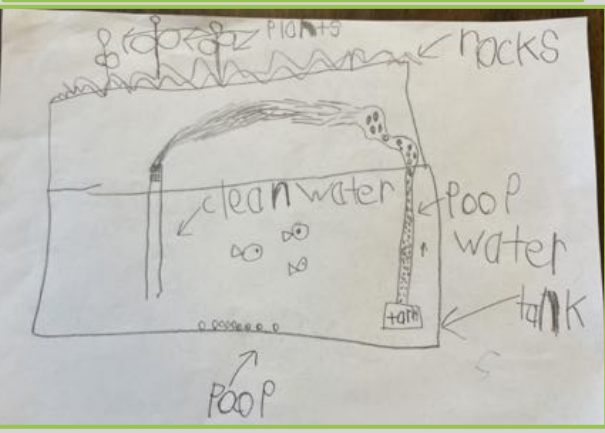

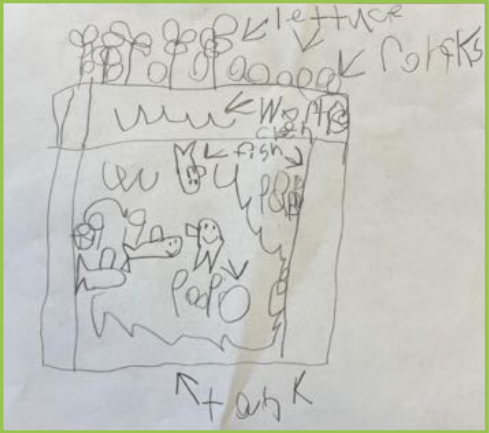

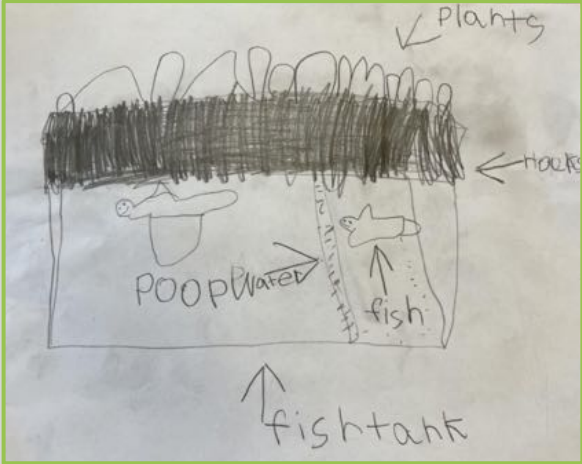

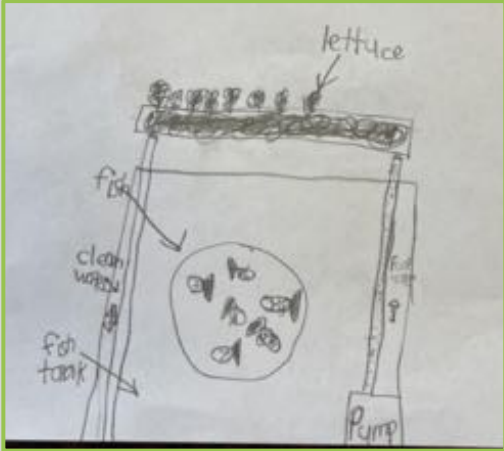

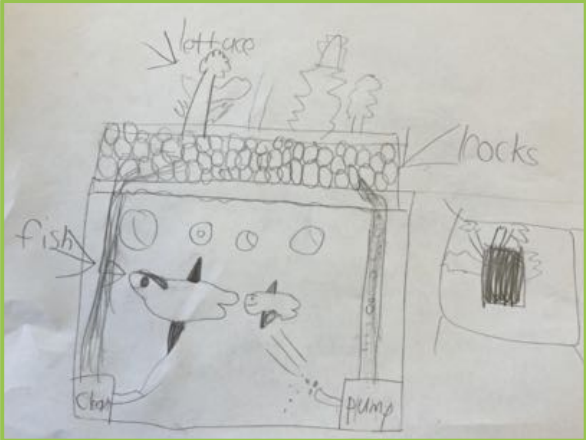

hypothesis Donica
I think aquaponics will grow best because the fish poop help the plants.

hypothesis SIC
I think aquaponics will grow best because there is a lot of water.

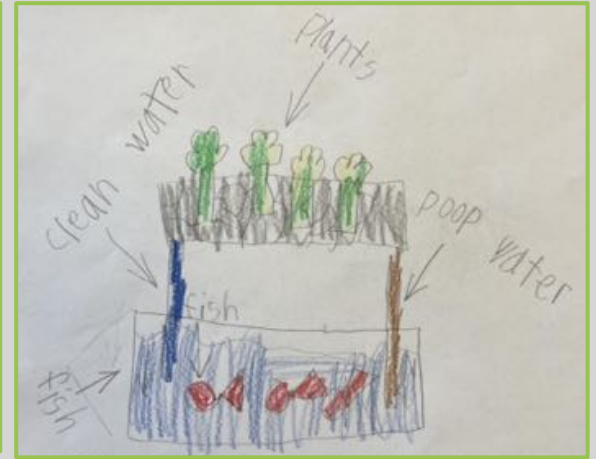

hypothesis
I think aquaponics will grow best because the fish is help the plants grow better.

hypothesis Kai
I think conventional soil will grow best because the soil helps the plant.

Science Notebook - Further Questions

I wonder
how the
plants grow
like its soft.

I wonder
if fish
drink?

I wonder if
the fish help
in any other
way?

Moley

I wonder what
one fish likes?

Regan

I wonder
the why people
like the
grain.

I wonder
how much
fish
poop?

I wonder
if the
plant got
too much water

Lukas

do no
I wonder
the fish
poop helps
it grow
not a question

I wonder
how does
a seed
grow?

Golden

I wonder
how long
it takes
to grow
a plant

Simon
