

Pages from my Field Notebook

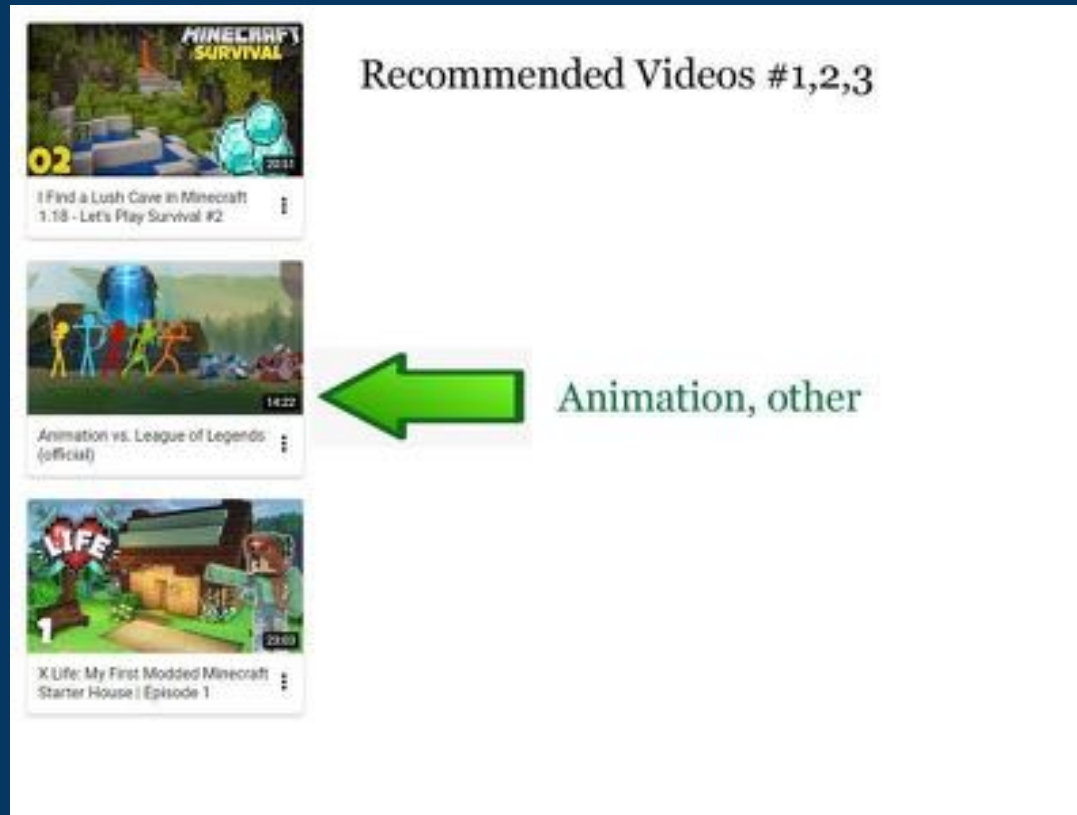

My Field Notes were taken by hand. These are examples of the notes I took for each videos I watched. I took a screenshot of each video in case I wanted to go back and look up any information such as the Channel name, when it was created, or how many views it had.

You can see the information that I took:

Keywords entered, which recommended video I chose, length of the video, topic of the video, and topics if the first 10 recommended videos.

Pages from my Field Notebook

Example of a video that had a different topic than my keywords. This is from **YouTube Kids**.

I categorized this one as: Animation, other. The topic of this video was Animation and it was about a video game called League of Legends.

Two green arrows point to specific videos in the list:

- A green arrow points to the video "Surviving 100 Nights on a Minecraft Murder Island... here!..." with the text "Playing Minecraft" next to it.
- A green arrow points to the video "SUPER SHOWDOWN BOWL! - TOON SANDWICH" with the text "Animation video" next to it.

Example of recommended videos from **YouTube**.

My keywords were Star Wars Lego Animation which is why 4 of the videos are on that topic. One video recommendation is for Playing Minecraft and one is for
