All-Time Palo Verde Seed Observations:

Observation of of Palo Verde Seed Data Table								
	Water Table Depth: 4in		Water Table Depth: 7in		Water Table Depth: 11in		Water Table Depth: 14in	
Weeks	Observations of Palo Verde Seed: 1	Observations of Palo Verde Seed: 2	Observations of Palo Verde Seed: 3	Observations of Palo Verde Seed: 4	Observations of Palo Verde Seed: 5	Observations of Palo Verde Seed: 6	Observations of Palo Verde Seed: 7	Observations of Palo Verde Seed: 8
1	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown	Pot full of soil, nothing grown
2	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow	Sapling finally started to grow
3	Stem poked out, light green color, tall	Stem poked out, yellowish green, tall	Stem poked out, green, bit short	Stem poked out, dark green, short	Stem poked out, light green, mildly short	Stem poked out, green, tallest of the bunch	Stem poked out, dark green, mildly tall	Stem poked out, light green, mildly tall
4	Stem starts to grow taller, slightly darker	Stem starts to grow taller, turned light green	Stem starts to grow taller, slightly darker now	Stem starts to grow taller, slightly lighter	Stem starts to grow taller, green now	Stem starts to grow taller, still green	Stem starts to grow taller, starts to get lighter	Stem starts to grow taller, starts to get darker
5	Light green leaves start to pop out	Yellowish-light green leaves start to pop out	Dark green leaves start to pop out	Light green leaves start to pop out	Green leaves start to pop out	Light green leaves start to pop out	Light green leaves start to pop out, leaves get darker	Light green leaves start to pop out, leaves get somewhat lighter
6	Stem gets taller and leaves get bigger, grow straight	Stem gets taller and leaves get bigger, starts to drop	Stem gets taller and leaves get bigger leans to the right side	Stem gets taller and leaves get bigger, straight up	Stem gets taller and leaves get bigger, drops to the right side	Stem gets taller and leaves get bigger, leans back	Stem gets taller and leaves get bigger, grow up right	Stem gets taller and leaves get bigger, grows slightly to the left
7	Smaller stem appears on top of the plant, bit small	Smaller stem appears on top of the plant, little short	Smaller stem appears on top of the plant, a bit bigger	Smaller stem appears on top of the plant, medium size	Smaller stem appears on top of the plant, getting taller	Smaller stem appears on top of the plant, getting bigger	Smaller stem appears on top of the plant, drops to one side	Smaller stem appears on top of the plant, still drops to the left side
8	Leaves start to pop out of the smaller stem	Yellowish leaves start to pop out of the smaller stem	Dark green leaves start to pop out of the smaller stem	Lightish-darkish leaves start to pop out of the smaller stem	Light green leaves start to pop out of the smaller stem	Green leaves start to pop out of the smaller stem	Dark green leaves start to pop out of the smaller stem	Light green leaves start to pop out of the smaller stem
9	Stem starts to thicken sightly, leaves appear to look more vibrant	Stem starts to thicken slightly, leaves appear to look more vibrant, less yellowish more light green	Stem starts to thicken slightly, leaves appear to look more vibrant, less dark greenish more lightish green	Stem starts to thicken slightly, leaves appear to look more vibrant, less darkish more lightish green	Stem starts to thicken slightly, leaves appear to look a bit monotone, start to drop slightly to the right side,	Stem starts to thicken slightly, leaves appear to look a bit dull, starts drop lightly to the right side, appears	Stem starts to thicken slightly, leaves appear to look a bit dull, starts drop heavily to the right side, appears	Stem starts to thicken slightly, leaves appear to look a bit monotone, starts dropping heavily to the left side, appears greenish-yellowish,

					appears greenish-yellowish	yellowish	yellowish, looks about to die	looks about to die
10	Leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Light green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Lightish-darkish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Darkish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Yellowish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Dark yellowish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Bleak yellowish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold	Light yellowish green leaves start to wilt slowly becoming much more wrinkly in preparation for the Winter cold
11	Leaves appear to instead of wilting to instead gain their vitality back	Light green leaves appear to instead of wilting to instead gain their vitality back	Lightish green leaves appear to instead of wilting to instead gain their vitality back	Dark green leaves appear to instead of wilting to instead gain their vitality back	Yellowish green leaves start to fall from the stem making the stem more bare	Dark yellowish green leaves start to fall from the stem making the stem more bare	Bleak yellowish green leaves start to fall from the stem making the stem more bare	Light yellowish green leaves start to fall from the stem making the stem more bare
12	Stem seems to have grown more, leaves seem vibrant and green	Light green stem seems to have grown more, leaves seem vibrant and green	Stem seems to have grown more, leaves seem vibrant and lightish green	Stem seems to have grown more, leaves seem vibrant and dark green	Stem seems to have grown more, but most of the yellowish green leaves of the stem have fallen painting a bleak picture	Stem seems to have grown more, but most of the dark yellowish green leaves of the stem have fallen painting a dull picture	Stem seems to have grown more, but most of the yellowish green leaves of the stem have fallen painting a dreary picture	Stem seems to have grown more, but most of the light yellowish green leaves of the stem have fallen painting a somber picture
